ICEBLAZER WST1

Studdable Performance Winter Tire

Pneu d'hiver de performance, pouvant recevoir des crampons

The Ice Blazer WST1 is a studdable winter tire designed for drivers that demand maximum traction in severe weather conditions, letting you outperform the elements, so you can get more out of your winter. Compound recipe: • Green technology: Extensive use of environmentally friendly materials that meet European REACH requirements. • Specially formulated compound and polymer blends keep the rubber flexible for maximum performance in extreme temperatures improving safety and handling in northern winter conditions, designated with the Severe Service Emblem. • Specially blended Silica-Reinforced Formula for excellent grip performance in low temperatures.

Le pneu Ice Blazer WST1 accepte les crampons et est conçu pour les conducteurs qui exigent une traction maximale dans des conditions hivernales rigoureuses, vous laissant maîtriser les éléments pour que vous puissiez soutirer le maximum de l'hiver. Recette du composé: • Technologie verte: Grande utilisation de matériaux écologiques qui répond aux exigences européennes REACH (enregistrement, évaluation, autorisation et restriction des produits chimiques). • La formulation particulière et les mélange de polymères gardent le caoutchouc souple pour fournir une performance maximale dans les températures hivernales extrêmes, ce qui augmente la sécurité et la maniabilité dans les conditions de conduite nordiques, désignées par l'emblème de service intensif. • Une formulation de mélange particulier renforcé de silice, qui fournit une excellente adhérence à basses températures.

PERFORMANCE RATINGS:

Ice Performance Performance sur chaussée glacée	9
Snow Performance Performance sur chaussée enneigée	9
Dry Performance Performance sur chaussée sèche	8
Ride Comfort Confort de roulement	8
Quietness Silence	8

V-channels:
Designed to channel snow, slush, and water for maximum grip in severe conditions.

Design du profil large:
Conçu pour maximiser l'empreinte au sol, ce qui augmente l'adhérence, lla maîtrise et la stabilité latérale.

Multi-directional high density siping:
Direction tread pattern with aggressive sipes engineered for excellent directional grip on snow and ice while ensuring a quiet and comfortable ride.

Disposition multidiretctionnelle des lamelles de forte densité:
Motif de bande directionnel doté d'une grande quantité de lamelles conçues pour fournir une excellente adhérence directionnelle dans la neige, la glace, qui assure une tenue de route silencieuse et confortable.
